Nagase & Co., Ltd.

Nagase India Opens New Branch Office in Pune, Maharashtra
—Accelerating Business Expansion in a Growth City Hub for the Automobile and Chemicals Industries

Nagase India Private Ltd., the local Indian subsidiary of Nagase & Co., Ltd. (Head Office: Chiyoda-ku, Tokyo; Representative Director, President and CEO: Hiroyuki Ueshima), opened a new branch office in Pune, Maharashtra on December 1, 2025. As part of the growth strategy in its Medium-Term Management Plan **ACE 2.0**, the NAGASE Group has specified the four quadrants of Foundation, Focus, Development, and Improvement, and is carrying out its businesses along the axes of the trading, manufacturing, and R&D functions. As part of the expansion of business in a new area (the global south), included in the Development quadrant, this establishment of the Pune Branch Office will be used to increase and accelerate business expansion in India, one of the new areas being focused on.

Since expanding into India in 1964, the NAGASE Group has carried out business along the trading axis responding both to domestic Indian demand and sourcing for products targeting foreign markets, in the areas of chemical products, life sciences, plastics, automobiles, and electronics. In addition to the head office in Mumbai, there are currently branch offices in Gurugram, Chennai, and Bangaluru, and so the Pune Branch Office will be the fifth office. In recent years, industry growth in the greater Pune area—particularly in sectors connected to automotive manufacturing—has been notable, and this region represents one of several areas where Nagase India aims to strengthen its presence as part of a broader, country-wide expansion.

The NAGASE Group will, in step with India's economic growth, work to respond to the needs of the local community and customers through flexible and agile business expansion.

[About Pune]

Pune is one of India's major industrial cities and plays a central role in the country's automotive production. Numerous Western and Japanese manufacturers have established operations in the region, creating a strong industrial cluster. In recent years, industries related to chemical products have also shown significant growth. With its expanding R&D and manufacturing base, Pune continues to strengthen its position as an important hub for India's industrial sector.

[About Nagase India]

- **Key Businesses**

Building on more than 60 years of experience and networks in import and export

operations in India, Nagase India established its Coating Application Laboratory in 2012. The company goes beyond the procurement and distribution of raw materials by developing functions and applications tailored to the local market, as well as proposing formulations for final products using those materials. To respond to increasingly complex and diversified customer needs, Nagase India also provides optimized logistics solutions within India and supports Japanese companies entering the Indian market.

With the opening of the Pune branch, Nagase India will further strengthen customer touchpoints and establish a more locally rooted sales and technical support structure, enabling faster and more accurate service delivery. While Nagase India continues to expand its presence across India, the Pune branch will serve as one of its key locations supporting growth in strategic markets.
